

Director for Innovations in Testing

The National Board of Osteopathic Medical Examiners (NBOME) is seeking an individual with experience in medical education and testing to direct NBOME's new Innovations in Testing Division. This position will be based in NBOME's Conshohocken, PA office (bordering Philadelphia). A master's degree is required for this position and a doctorate degree is preferred.

The Director for Innovations in Testing will:

- Develop, conduct and direct research and pilot testing aimed at improving current products and generating ideas for new products and services in the area of physician competencies
- Develop processes and procedures by which new technologies are assessed
- Evaluate each innovation opportunity and perform initial due diligence on the proposed technology, market opportunity, and overall fit with NBOME's strategic plan
- Present ideas to senior management and leadership and seek approval for execution and launch
- Assist with grant-writing

Please forward letter of interest, CV and salary requirements to dgrimes@nbome.org.
